

MODEL GUIDELINES
FOR A NEW SAFETY FRAMEWORK

CALIFORNIA CHAMPIONS

Californians for Safety and Justice is grateful to the following individuals who were instrumental in developing the [Shared Safety Framework](#) and the Model Guidelines for a New Safety Framework in cities and counties across California. These champions include: survivors and formerly incarcerated people helping to transform systems; police chiefs committed to racial reconciliation; cities and counties committed to building trauma recovery centers; probation chiefs and public health officials centering the needs of communities most impacted by crime and violence; and system leaders across California committed to listening and learning from the people most affected by crime to envision a new safety framework that protects our most vulnerable communities. Californians for Safety and Justice is grateful for their insights, experience, and ideas.

Elizabeth Siggins, Consultant, Shared Safety California, Californians for Safety and Justice

We are so grateful for these system leaders with decades of diverse experience, knowledge, and insight who recognize that safety for all is not an us/them problem, it requires all of us to invest in Shared Safety. Their willingness to lean in and co-create innovative safety strategies has been and will continue to be critical to systems transformation. We hope this series will inform the Shared Safety work as it grows across California and the country.

Marisa Arrona
Local Safety Solutions Project Director
